The PRO 15 banknote counter accurately counts different currencies from various countries all around the world.

High counting speed – 900 banknotes per minute.

The summation function allows you to count the total number of banknotes from several stacks.

The PRO 15 is easy and convenient in use, requiring only two buttons to use all operation modes. The bright LED display shows the counting results.

There are two different size clamp plates to prevent banknotes from scattering during the counting process.

The PRO 15 banknote counter is compact and convenient and does not occupy a lot of space.

The kit contains a leather case which can be mounted on a belt.

The PRO 15 is able to be powered by a cable or 4 AA batteries.

The PRO 15 is able to count not only banknotes, but also different paper documents up to A5 in size (depending on density).

Low battery warning indicator on the body of the device.

Anti-skid elements make the device more stable during stationary use.
